**Dear Shareholders,**

I welcome you all to the 36th Annual General Meeting on behalf of the Company and esteemed members of the Board. It gives me immense pleasure to present to you an overview of the company's performance during the Fiscal Year 2022/23, as the company has accomplished another encouraging financial year in 2022/23. The company has grown satisfactorily with your patronage and guidance, and I am sure it will further prove itself in the coming years as well by contending to be one of the top Life Insurance Companies in Nepal.

Domestic and global economic indicators for the financial year 2022/23 have not been very encouraging. Due to long term consequences of Covid 19 pandemic, the conflict between Russia and Ukraine and increasing geo economic fragmentation,

कारण विश्वव्यापी अर्थतन्त्रको वृद्धिदर सुस्त र असमान रहेको छ भने बढ्दो भौगोलिक अशान्तिका कारण समेतले विश्व अर्थतन्त्र महामारीको पूर्वस्तरमा फर्कन सकेको छैन । विश्व अर्थतन्त्र अहिले सुधार उन्मुख भएतापनि सो चुनौतिपूर्ण रहेको र यसको लागि लामो समय लाग्ने देखिएको छ ।

कमजोर आर्थिक गतिविधिका कारण स्वदेशी अर्थ व्यवस्था समेत सुस्त रह्यो । तरलता समस्यामा केही सहजता देखा परे पनि बढ्दो ब्याजदरको कारणले लगानीमा प्रतिकूल प्रभाव पायो भने पूँजीगत खर्च एवं समग्र माँगमा आएको कमीले अर्थ व्यवस्थामा प्रतिकूल प्रभाव पारेको छ । यी विविध कारणहरूले आ.व.२०७९/०८० मा जीवन बीमा व्यवसाय राम्ररी विस्तार हुन सकेन, यद्यपि आ.व.२०८०/०८१ मा जीवन बीमा व्यवसायले सुधारको बाटो समातेको छ ।

आ.व.२०७९/८० मा प्रतिकूल परिस्थितिको बावजुद कम्पनीले सन्तोषप्रद व्यवसाय गरी जीवन बीमा बजारमा आफ्नो हिस्सा विस्तार गर्न सफल भएको छ । कम्पनीको कूल बीमा प्रिमियम आम्दानी समिक्षा वर्षमा १६.६६ प्रतिशतले वृद्धि भई रु १६८०.९० करोड पुगेको छ भने कूल लगानी १५.७२ प्रतिशतले वृद्धि भई रु ५९७८.२० करोड पुगेको छ । लगानी आयमा गत वर्ष भन्दा २२.११ प्रतिशतले वृद्धि भई रु.४८७.१८ करोड पुगेको छ । कम्पनीको कूल बीमा करार दायित्वमा चालु वर्षको रु ९३१.८३ करोड को खूद वचत समेत गरेर वर्षान्तमा रु. ६,५४०.४० करोड पुगेको छ ।

कम्पनीका सबै लगानीहरू श्री नेपाल बीमा प्राधिकरणले जारी गरेका लगानी निर्देशिका अनुसार गरिएका छन् यी सबै सुरक्षा र प्रतिफलको हिसाबले राम्रा छन् ।

कम्पनीले आगामी दिनहरूमा आफ्नो स्वामित्वमा जग्गा रहेका शाखाहरूमा व्यापारिक भवन निर्माण गर्ने प्रयोजनको लागि स्थिर सम्पत्तिमा थप लगानी गर्दै जाने नीति अवलम्बन गरेको छ । यसै परिप्रेक्षमा कम्पनीको नेपालगन्ज स्थित भवन निर्माण कार्य सम्पन्न हुने स्थितिमा छ र यथा शिघ्र सो भवन संचालनमा ल्याउन प्रयास भै रहेको अनुरोध छ ।

the global recovery remains slow and uneven, and has fallen short of it's pre-pandemic path. The global economy is recovering but faces a long road ahead as economic recovery remains challenging.

Nepal's economy has remained low due to weakening of economic activities. The stress in liquidity situation has somewhat eased, however, reduced investment due to high interest rates, low level of capital expenditure and a decline in aggregate demands have caused further slackness in economic activities. Due to these various reasons, the overall life insurance growth in Fiscal year 2022/23 has not been satisfactory. However, this situation has improved in Fiscal year 2023/24.

Despite such adverse situations, the company has done reasonably well in fiscal year 2022/23 and has succeeded in increasing its market share. The total premium income has reached Rs. 16,809 million in the fiscal year 2022/23, an increase of 16.66% over previous year. The total investment has similarly increased by 15.72% reaching Rs.59,782 million. The investment income has reached Rs. 4,871.8 million, which is an increase of 22.11% over previous year. The total Insurance Contract Liabilities stood at Rs.65,404 million at the end of the fiscal year with further addition of Rs.9,318.3 million during the review period.

All the investments of the Company have been made based on Investment Guidelines of the Regulatory Authority and they are good from view point of Security and Rate of return.

It has been the policy of the Company to make additional investments in fixed assets by constructing commercial buildings at those branches where it owns suitable plots of land. At present Nepalgunj Building construction is about to be completed and efforts are on to make it operational at the earliest.

कम्पनीले Merchant Banking क्षेत्रमा नेशनल क्यापिटल लिमिटेड नामक एक सहायक कम्पनीको स्थापना गरी संचालनको प्रक्रिया अघि बढाएको छ भने आ.व.२०८०/०८१ मा सहायक कम्पनी कै रूपमा एउटा Investment Company खोल्न प्रयासरत रहने छ । यसबाट लगानी विविधीकरणमा सहयोग पुग्ने र यसले कम्पनीको प्रवर्धनमा टेवा पुर्‍याउने हाम्रो विश्वास छ ।

कम्पनीले ग्राहक केन्द्रित भई सूचना प्रविधि क्षेत्रमा पर्याप्त लगानी गर्दै आएको छ । कम्पनीले ब्यवसाय संचालनको क्रममा डिजिटल प्रणालीको उच्चतम प्रयोग गर्दै आएका छ र डाटाबेस सुरक्षाको लागि आवश्यक ब्यवस्था समेत मिलाएका छ ।

श्री नेपाल बीमा प्राधिकरणले सबै बीमा कम्पनीहरुको लागि जोखिममा आधारीत पूँजीको अवधारणा कार्यान्वयन गर्न आवश्यक प्रक्रिया शुरु गरेको छ । कम्पनी यसमा प्रतिबद्ध छ र यसको लागि आवश्यक गृहकार्य अघि बढाएको छ ।

कम्पनीले सदा भै सबै सरोकारवालाहरुलाई उचित प्रतिफल उपलब्ध गराउन प्रतिबद्ध रहे अनुरूप कम्पनीले जिम्मेवारी पूर्वक आफ्ना बीमितहरु एवं शेयरधनी महानुभावहरुलाई आकर्षक प्रतिफल उपलब्ध गराउन प्रयासरत रहेको छ । यसै परिप्रेक्षमा समिक्षा वर्षमा बीमाङ्गीय मूल्याङ्कनको आधारमा कम्पनीले बीमितहरुलाई आकर्षक वोनस दर प्रदान गर्न सफल भएको छ ।

कम्पनीको संचालक समितिले यस साधारण सभामा अद्यावधिक चुक्ता पूँजीको १० प्रतिशतको दरले नगद लाभांश रु.५०,११,६६,६४२/५० र वोनस शेयरको रूपमा लाभांश रु.२०,०४,६६,६५७/- एवं सो मा लाग्ने करको लागि समायोजन गर्ने गरी नगद लाभांश रु.३,६९,२८,०६८/३९ वितरण गर्न प्रस्ताव पेश गरेको छ । सो यस साधारण सभाबाट अनुमोदन पश्चात चुक्ता पूँजी रु.५,२१,२१,३३,०८२/- पुग्ने अनुरोध छ ।

The Company has registered a subsidiary Company "National Capital Ltd. In the Merchant Banking Sector, and shall be made operational at the earliest. Further efforts are on to establish another subsidiary to operate as an Investment Company in the fiscal year 2023/24. This diversification is expected to add to the image & economic growth of the company.

The company has been making necessary investment in IT Sector to provide as much customer centric services as possible. We have made significant progress in digitization in business operations and in the upgradation of backup services and security.

Nepal Insurance Authority has now initiated the implementation process of the concept of Risk Based Capital for all the insurance companies, and the company is exploring necessary steps for this purpose and is committed to this process.

We are always driven by our responsibility to give the best returns to our policyholders and our shareholders as it has been the policy of the company to ensure proper return to all stakeholders. In this context, attractive Bonus rates have been declared for policy-holders, based on Actuarial Valuation in the review period.

## २. राष्ट्रिय तथा अन्तराष्ट्रिय परिस्थितीबाट कम्पनीको कारोबारलाई कुनै असर परेको भए सो असर :

अन्तराष्ट्रिय मुद्रा कोषले सार्वजनिक गरेको विश्व आर्थिक परिदृश्य (World Economic Outlook) को अक्टोबर, २०२३ अंक अनुसार सन् २०२२ मा ३.५ प्रतिशतले विस्तार भएको विश्व अर्थतन्त्रको वृद्धिदर सन् २०२३ मा ३ प्रतिशतमा सिमित हुने देखिएको छ । विकासित अर्थतन्त्रको वृद्धिदर अघिल्लो वर्षको २.६ प्रतिशतको तुलनामा सन् २०२३ मा १.५ प्रतिशतमा सिमित हुने र उदीयमान अर्थतन्त्रको वृद्धिदर अघिल्लो वर्षको ४.१ प्रतिशतको तुलनामा सन् २०२३ मा ४ प्रतिशतमा सिमित हुने कोषको प्रक्षेपण छ ।

गत केही समय यता रुस-युक्रेन युद्ध, कोभिड-१९ पछिको आर्थिक मन्दीका कारण विश्वव्यापी अर्थतन्त्रको वृद्धिदर सुस्त र असमान रहेको छ । महामारीको दीर्घकालिन असर, रुस-युक्रेन बीच युद्ध र बढ्दो भौगोलिक अशान्तिका कारण विश्व अर्थतन्त्र महामारीको पूर्वस्तरमा फर्किन सकेको छैन ।

उच्च मूल्य वृद्धिलाई नियन्त्रण गर्न गत वर्ष देखि विभिन्न मुलुकका केन्द्रीय बैंकहरूले कसिलो मौद्रिक नीतिको कार्यदिशा अनुरूप ब्याजदरमा वृद्धि गरेको थियो भने हाल मूल्य वृद्धि सामान्यतिर फर्कन थालेसँगै ब्याजदरहरू घट्ने क्रममा रहेको छन् । नेपालमा पनि केन्द्रीय बैंकले सोही नीति अंगीकार गर्दा ब्याजका दरहरू विस्तारै घट्न थालेका छन् ।

केन्द्रीय तथ्याङ्क विभाग नेपालका अनुसार आर्थिक वर्ष २०७९/८० मा नेपालको आर्थिक वृद्धि उत्पादनको मुल्यमा १.८६ प्रतिशत रहेको छ । अघिल्लो वर्ष यस्तो वृद्धिदर ५.६१ प्रतिशतले रहेको थियो । समीक्षा वर्षमा कृषि, उद्योग तथा सेवा क्षेत्रको वृद्धिदर क्रमशः २.७३ प्रतिशत, ०.५९ प्रतिशत र २.३३ प्रतिशत रहेको छ, जुन अघिल्लो वर्ष क्रमशः २.२४ प्रतिशत, १०.८० प्रतिशत र ५.३२ प्रतिशत रहेको थियो ।

२०८० असार महिनामा वार्षिक विन्दुगत उपभोक्ता मुद्रास्फीति ७.७४ प्रतिशत रहेको छ । २०७९ असार महिनामा यस्तो मुद्रास्फीति ६.३२ प्रतिशत रहेको थियो ।

**Independent Auditor's Report**  
**To the Shareholders of**  
**National Life Insurance Company Limited**

**Opinion**

We have audited the accompanying financial statements of National Life Insurance Company Limited ("Company"), which comprise the statement of financial position as at 31 Asadh 2080, the statement of profit or loss, statement of other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to financial statements including a summary of significant accounting policies (together "financial statements").

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 Asadh 2080, and its financial performance and cash flows for the year then ended in accordance with Nepal Financial Reporting Standards (NFRSs).

**Basis for Qualified Opinion**

The Company has recognized 90% of change in fair value of investment property, i.e. Rs. 56,693,763 and 90% of Share of Profit of Associates accounted as per Equity Method, i.e. Rs. 93,642,814 in insurance contract liabilities. As per NAS 40 and NAS 28, these gains/profits are required to be fully recognized in profit or loss. As these gains and profits are part of equity, including them in insurance contract liabilities is overstatement of liability and understatement of equity. Thus liability of the Company is overstated by Rs. 150,336,577 and the equity is understated by the same amount.

However, this practice has been followed as per Insurance Regulator's Format based on NFRS and is presented through financial statements and disclosures in previous years as well.

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of this auditor's report.

We are independent of National Life Insurance Company Limited in accordance with The Institute of Chartered Accounts of Nepal's (ICAN) Handbook of Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to our audit of the financial statements in Nepal, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion there on, and we do not provide a separate opinion on these matters.

| <p><b>1. Insurance Contract Liabilities</b></p> <p>We considered the valuation of insurance contract liabilities to be significant to the audit of the Company. Specifically, actuarial assumptions and methodologies involve judgments about future events, both internal and external to the Group, for which small changes can result in a material impact to the valuation of insurance contract liabilities. Additionally, the valuation of insurance contract liabilities is dependent on the quality, integrity and accuracy of the data used in valuations.</p> <p>We have therefore identified the following areas of focus in relation to the valuation of insurance contract liabilities:</p> <p>a) Appropriateness of actuarial assumptions, models and methodology; and</p> <p>b) Data processes and controls relevant to the actuarial valuation.</p> <p>The assumptions that we consider to have the most significant impact on the actuarial valuations are: Mortality, longevity, disability and morbidity; Persistency; Expenses; Risk discount rates; and Allowance for credit defaults.</p> <p>Refer to accounting policy 3(m) and the disclosures in note 19</p> | <p><b>Principal Audit Procedures</b></p> <p>Our audit of these actuarial assumptions, models and methodology applied in the valuation of insurance liabilities, inter alia, included assessment of the valuation methodology and assumptions for compliance with the latest actuarial guidance, legislation and approved company policy along with approval of Nepal Insurance Authority.</p> <p><b>Conclusion</b></p> <p>The insurance contract liabilities are fairly presented except stated in Basis for Qualified Opinion.</p> |

**Responsibilities of management and Those Charged with Governance for the Financial Statement**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Nepal Financial Reporting Standards and other regulatory requirement and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

आर. राजकर्णिकार एण्ड कं.

**R. Rajkarnikar & Co.**

Chartered Accountants

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operation, or has not realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### **Auditor's responsibility for the audit of financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users taken on the basis of these financial statements.

As part of an audit conducted in accordance with NSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern; and,
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in manner that achieves fair presentation.

We communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **(a) Goodwill and Intangible Assets**

#### **i) Recognition**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in Statement of profit or loss in the year in which the expenditure is incurred.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Goodwill on business combination is recognized on the acquisition date at the excess of (a) over (b) below :

(a) The aggregate of :

- The consideration transferred measured in accordance with the NFRS 3, which generally requires acquisition-date fair value
- The amount of any non-controlling interest in the acquiree measured in accordance with the NFRS 3, and
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.
- The net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

#### **ii) Amortization**

The useful lives of intangible assets are assessed to be either finite or indefinite. An intangible asset shall be regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflow for the entity.

Amortization is recognized in statement of profit or loss on Straight Line Method (SLM) over the estimated useful life of the intangible assets, from the date that is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss.

Useful Life of Intangible Assets based on SLM is categorized as stated below:

| List of Assets Categories | Useful Life (In Years) for SLM |
|---------------------------|--------------------------------|
| Softwares                 | 5                              |
| Licenses                  | Not Applicable                 |

#### **iii) Derecognition**

An Intangible Asset is derecognized when no Future Economic Benefits are expected to arise from the continued use of the Asset. Any Gain or Loss arising on the derecognition is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

#### iv) Impairment of Assets

The Company assesses at each reporting date as to whether there is any indication that Intangible Assets may be impaired. If any such indication exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. An impairment loss is recognized in the Statement of Profit or Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

#### (b) Property and Equipment (P&E)

##### i) Recognition

Freehold land is carried at historical cost and other items of property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation when, it is probable that future economic benefits associated with the item will flow to the Company and it can be used for more than one year and the cost can be measured reliably.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it meets the recognition criteria as mentioned above. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

##### ii) Revaluation

After recognition as an assets, lands and buildings whose fair value can be measured reliably, have been carried at revalued amount at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are being performed to ensure that the fair value of a revalued asset does not materially differ from its carrying amount as at the reporting date. Valuation of the land and buildings are undertaken by professionally qualified valuers.

An increase in the carrying amount as a result of revaluation, is recognized in other comprehensive income and accumulated in equity under the heading of revaluation reserve. However, the increase is recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit and loss. A decrease in the carrying amount as a result of revaluation, is recognized in profit or loss. However, the decrease is recognized in other comprehensive income to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings. Difference between depreciation on the revalued carrying amount of the asset and depreciation based on the asset's original cost is transferred to retained earnings.

##### iii) Depreciation

Depreciation of Property, Plant and Equipment other than the Freehold Land i.e. the Company's Freehold Building, Plant & Machinery, Vehicles & Other Assets is provided on "Straight Line Method (SLM)" based on Useful Life estimated by technical expert of the management. The Assets Useful Life and Residual Values are reviewed at the Reporting date and the effect of any changes in estimates are accounted for on a prospective basis.

Useful Life of Property, Plant and Equipment based on SLM is categorized as stated below:

| List of Assets Categories  | Useful Life (In Years) for SLM |
|----------------------------|--------------------------------|
| Land                       | NA                             |
| Buildings                  | 40                             |
| Leasehold Improvement      | Lease Period                   |
| Furniture & Fixture        | 10                             |
| Computers and IT Equipment | 5                              |
| Officer Equipment          | 5                              |
| Vehicles                   | 10                             |
| Other Assets               | 10                             |

#### **iv) Derecognition**

An item of Property, Plant and Equipment is derecognized up to disposal or when no Future Economic Benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

#### **v) Impairment of Assets**

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the Asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets. Assets that suffer an impairment are reviewed for possible reversal of the impairment at the end of each reporting period. In case of such reversal, the carrying amount of the asset is increased so as not to exceed the carrying amount that would have been determined had there been no impairment loss.

#### **vi) Capital Work-In-Progress**

These are expenses of capital nature directly incurred in the construction of buildings, major plant and machinery and system development which are to be capitalized. Capital Work in Progress would be transferred to the relevant asset when it is available for use. Capital Work in Progress is stated at cost less any accumulated impairment losses.

Subsequent to initial recognition, investment properties are stated at fair value, which reflects market condition at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise, including the corresponding tax effect.

The fair value of investment property is determined by an external, independent property valuer, having appropriate recognized professional qualification and recent experience in the location and category by property being valued.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of profit or loss in the year of retirement or disposal.

Transfer are made to (or from) investment property only when there is a change in use. For a transfer from investment property, the Company accounts for such property in accordance with the policy stated under PPE up to the date of change in use.

Evidence of impairment may include indications that a financial asset or a group of financial assets is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date.

The Company has depreciated the right of use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. The company has also assessed the right of use asset for impairment when such indicator exist.

At the commencement date, the company has measured the lease liability at the present value of the lease payments unpaid at that date, discounted using the company's incremental borrowing rate because as the lease contracts are negotiated with third parties it is not possible to determine the interest rate that is implicit in the lease. The incremental borrowing rate is the estimated rate that the company would have to pay to borrow the same amount over a similar term, and with similar security to obtain an asset of equivalent value.

#### Notes on Fair Value :

The Company obtains independent valuations for its investment properties. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from a variety of sources including :

- Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences,
- Discounted cash flow projections based on reliable estimates of future cash flows,
- Capitalised income projections based upon a property's estimated net market income, and a capitalization rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by an independent valuator, Mr. Prabin Bajracharya. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data.

#### Disclosure on restriction on the realisability of investment properties:

There are no restrictions on the realisability of investment properties or proceeds of disposal.

#### Contractual obligations:

There are no contractual obligations to purchase, construct or develop investment property.

**i. Notes on the cash-flows considered for valuation of liabilities**

The method involves projection of individual policy cash flows expected over the remaining term of a policy using applicable decrement. The projection of cash flows assume all the policies would continue till the end of their term. Each time a bonus is assumed to be declared in future, a part of surplus distributed is allocated to the shareholders as their share. If the life fund remained sufficiently positive throughout the foreseeable future (for atleast next 10 years), the proposed bonus scales are considered to be sustainable given continuation of current conditions.

**ii. Notes on valuation methods and assumptions**

The Actuarial Valuation has been performed based on Mathematical Reserve which is determined separately for each contract by a prospective method, called the Gross Premium Method as per the Valuation Directive 2077 issued by Nepal Insurance Authority (NIA). The value of the liability at the valuation date is arrived at by calculating the present value of benefit and expense outgo less the present value of future premium income.

Reinsurance is also considered while computing the reserves. For Riders and Expat Policies, reserve is based on unearned premium reserve. For the purpose of the valuation the amount of mathematical reserve is set to zero, in case of negative reserve of any policy. Discount rate of 6% is used as prescribed by NIA. Mortality assumption of 40% Nepal Mortality Table, 2009 is used. Commission and Expenses are also considered while arriving at the reserves.

**iii. Notes on the discounting policy**

As per the Valuation Directive 2077, Discount rate must be 6% or return on investment whichever is lower. The company is earning around 9.45% on its Life Funds. So, discount of 6% is considered.

**iv. Notes on aggregation practices**

The valuation model determines reserves at the policy level, but the results can be grouped as needed, such as by product, policy, or other parameters (e.g., par or non-par).

**v. Any other disclosures as required**

The company is sufficiently solvent to meet its policyholders' liabilities, with a solvency ratio of 704% before considering the Cost of Bonus and 473% after Cost of Bonus.

**Level 1:** Level 1 Hierarchy includes Financial Instruments measured using Quoted Prices.

**Level 2:** Fair Value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximises the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to determine Fair Value of an instrument are observable, the instrument is included in Level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

There is no transfer of Financial Instruments between different levels as mentioned above during the year.

### (ii) Valuation Technique Used to Determine Fair Value

a) Use of quoted market prices or dealer quotes for similar instruments

b) Fair Value of remaining financial instruments is determined using discounted cash flow analysis

### (iii) Valuation Process

The finance and accounts department of the Company performs the valuation of financial assets and liabilities required for financial

reporting purposes. Discussion

on valuation processes and results are held at least once in a year.

The main level 3 inputs are derived and evaluated as follows:

a) Discount rate is arrived at considering the internal and external factors.

b) Discounting has been applied where assets and liabilities are non-current, and the impact of the discounting is material

**(iv) Fair Value of Financial Assets and Liabilities Measured at Amortised Cost**

The carrying amounts of cash and cash equivalents are considered to be the same as their fair values due to their short-term nature.

## Recommendatory Notes to the Financial Statements

### 46 Insurance Risk

Insurance risk includes the risk of incurring higher claims costs than expected owing to the random nature of claims, frequency and severity and the risk of change in the legal or economic conditions of insurance or reinsurance cover. This may result in the insurer having either received too little premium for the risks it has agreed to underwrite and hence has not enough funds to invest and pay claims, or that claims are in excess of those expected.

The Company seeks to minimise insurance risk through a formalised reinsurance arrangement with an appropriate mix and spread of business between classes of business based on its overall strategy. This is complemented by observing formalised risk management policies.

The Company considers insurance risk to be a combination of the following components of risks:

- a) Product development
- b) Pricing
- c) Underwriting and
- d) Claims Handling
- e) Reinsurance
- f) Reserving

#### **a) Product development:**

The Company principally issues the following types of Life Insurance contracts:

- Endowment
- Anticipated Endowment
- Endowment Cum Whole Life
- Whole Life
- Foreign Employment Term
- Other Term
- Special Term
- Others (to be Specified)

The above risk exposure is mitigated by the diversification across a large portfolio of insurance contracts and geographical areas. The variability of risks is improved by careful selection and implementation of underwriting strategies, which are designed to ensure that risks are diversified in terms of type of risk and level of insured benefits. Furthermore, strict claim review policies to assess all new and ongoing claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims are put in place to reduce the risk exposure of the Company. The Company further enforces a policy of actively managing and promptly pursuing claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the business."

#### **b) Pricing:**

The pricing of an insurance product involves the estimation of claims, operational and financing costs and the income arising from investing the premium received. The pricing process typically comprises collecting data on the underlying risks to be covered, determining the pricing assumptions and the base rate, setting the final premium rate, and monitoring the review of the appropriateness of pricing.

The Company collects adequate data to validate the reasonableness of the underlying assumptions used for pricing. The base rate represents the amount required to meet the value of anticipated benefits, expenses, and margins for risks and profit. Data primarily relates to the company's own historical experience and that of the industry where relevant. These may be supplemented by other internal and external data, and could include trends observed in claims costs and expenses.

Pricing is done by modelling all identified risks, using appropriate methodologies depending on the complexity of the risks and available data. Adequate buffers are kept in the premiums to cushion against the risk that actual experience may turn out to be worse than expected.

#### **c) Underwriting:**

The Company's underwriting process is governed by the internal underwriting procedures. Some of the actions undertaken to mitigate underwriting risks are detailed below:

- i) Investments are made on the training and development of underwriting and claims management staff, including those attached to the distribution network.

- ii) Application of Four-Eye principle on underwriting process.
- iii) Pre-underwriting inspections are made on new business over a predetermined threshold to evaluate risk prior to acceptance.
- iv) Post-underwriting reviews are conducted to ensure that set guidelines have been observed.
- v) Adequate reinsurance arrangements are in place and reviews are undertaken to ensure the adequacy of these covers.

#### d) Claims handling:

The Company considers insurance claim risk to be a combination of the following components of risks:

- i) Mortality Risk – risk of loss arising due to policyholder death experience being different than expected
- ii) Longevity Risk – risk of loss arising due to the annuitant living longer than expected
- iii) Investment Return Risk – risk of loss arising from actual returns being different than expected
- iv) Expense Risk – risk of loss arising from expense experience being different than expected
- v) Policyholder Decision Risk – risk of loss arising due to policyholder experiences (lapses and surrenders) being different than expected

#### Assumptions

The assumptions that have the greatest effect on the statement of financial position and statement of profit or loss of the Company are listed below:

| Particulars    | Current Year             |                   |                          |               | Previous Year            |                   |                          |               |

#### Sensitivities

The life insurance claim liabilities are sensitive to the key assumptions as mentioned in the table below. The following analysis is performed for reasonably possible movements in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities, profit before tax and profit after tax. The correlation of assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis.

#### e) Reinsurance

The Company purchases reinsurance as part of its risks mitigation programme. Premium ceded to the reinsurers is in accordance with the terms of the programmes already agreed based on the risks written by the insurance companies. Recoveries from reinsurers on claims are based on the cession made in respect of each risk and is estimated in a manner consistent with the outstanding claims provisions made for the loss. Although we mitigate our exposures through prudent reinsurance arrangements, the obligation to meet claims emanating from policy holders rests with the Company. Default of reinsurers does not negate this obligation and in that respect the Company carries a credit risk up to the extent ceded to each reinsurer.

#### f) Reserving

Insurance Contract Liabilities are created to cover this risk based on the actuarial valuation report.

## 47 Financial Risk

The Company's activities expose it to Credit Risk, Liquidity Risk & Market Risk.

### i) Credit Risk

Credit risk is the risk of financial loss as a result of the default or failure of third parties to meet their payment obligations to the Company. Thus, for an insurance contract, credit risk includes the risk that an insurer incurs a financial loss because a reinsurer defaults on its obligations under the reinsurance contract.

#### The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

- Company has credit risk policy which sets out the assessment and determination of what constitutes credit risk for the Company. Compliance with the policy is monitored and exposures and breaches are reported to the Company's risk committee. The policy is regularly reviewed for pertinence and for changes in the risk environment.
- Reinsurance is placed with counterparties that have a good credit rating and concentration of risk is avoided by entering into agreement with more than one party. At each reporting date, management performs an assessment of creditworthiness of reinsurers and updates the reinsurance purchase strategy, ascertaining suitable allowance for impairment.
- The company deals with only creditworthy counterparties and obtains sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults.

#### ii) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. In respect of catastrophic events there is also a liquidity risk associated with the timing differences between gross cash out-flows and expected reinsurance recoveries.

#### Maturity of Financial Liabilities:

### iii) Market Risk

#### a1) Foreign Currency Risk Exposure

Foreign exchange risk is the potential for the Company to experience volatility in the value of its assets, liabilities and solvency and to suffer actual financial losses as a result of changes in value between the currencies of its assets and liabilities and its reporting currency. The Company does not maintain foreign currency denominated assets in its investment portfolios and as such is not exposed to foreign exchange risk related to investments.

The Company has no significant concentration of currency risk. The amount with reinsurer is settled in Nepali Rupee.

#### b1) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The major interest rate risk that the Company is exposed to is the discount rate for determining insurance liabilities.

#### b2) Interest Rate Sensitivity

Profit or Loss is sensitive to changes in Interest Rate for Borrowings. A change in Market Interest Level by 1% which is reasonably possible based on Management's Assessment would have the following effect on the Profit After Tax.

| Particulars                     | Current Year | Previous Year |
|---------------------------------|--------------|---------------|
| Interest Rate - Increase By 1%* | -            | -             |
| Interest Rate - Decrease By 1%* | -            | -             |

\* Holding all other Variable Constant

#### c1) Equity Price Risk

"Equity price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in equity prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or by factors affecting all similar financial instruments traded in the market.

The Company has invested in equity securities and the exposure is equity securities price risk from investments held by the Company and classified in the statement of financial position as fair value through OCI."

#### c2) Sensitivity

The table below summarises the impact of increase/decrease of the index in the Company's equity and impact on OCI for the period. The analysis is based on the assumption that the equity index had increased/ decreased by 1% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

| Particulars                     | Current Year  | Previous Year |
|---------------------------------|---------------|---------------|
| Interest Rate - Increase By 1%* | 5,830,590,875 | 5,390,408,926 |
| Interest Rate - Decrease By 1%* | 5,722,966,077 | 5,274,180,502 |

\* Other components of equity would increase/decrease as a result of gains/ (losses) on equity securities classified as fair value through other comprehensive income.

## 48 Operational Risk

Operational Risk is the risk of direct or indirect loss, or damaged reputation resulting from inadequate or failed internal processes, people and systems or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications or can lead to financial loss. The Company cannot expect to eliminate all operational risks, but by initiating a rigorous control framework and by monitoring and responding to potential risks, the Company is able to manage the risks. Controls include effective segregation of duties, access controls, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit. Business risks such as changes in environment, technology and the industry are monitored through the Company's strategic planning and budgeting process.

## 49 Climate Risk

Assessing the impact of climate-related risks on the insurance industry is challenging due to the complexity, uncertainty, long-term horizon, data limitations, and regulatory/market uncertainty associated with climate change. Hence, National Life will employ robust risk management practices to access the impact of climate related risks and take necessary actions to mitigate those impacts. Also, National Life is in drafting phase of climate policy as the detailed impact study is going on. The impact study is going on and the climate policy is also in drafting phase, thus necessary work responsibilities will be assigned to the dedicated team. Meanwhile the team is doing the impact study of climate risk by collecting the relevant data and analyzing those data. Strategic plan to address the impact of climate risks and opportunities on our company's business, strategy, and financial planning, especially in line with the orderly scenario defined by the Network for Greening Financial System (NGFS) is in draft phase as the steps defined by NGFS. Once the impact study and strategic plan is finalized then the company shall prepare the Risk Management Systems Framework by including the various processes for identifying, assessing and monitoring climate change risks including the effect of climate change risk on reputation, liability, credit, market, strategic and operational risks. The company is in the process of introducing some of the basic key metrics, indicators and other measurements to assess the company's climate change risks. Some of them are:

- Physical Risk Metrics: Assess vulnerability of assets to climate hazards like storms and heatwaves.
- Transition Risk Indicators: Monitor impacts of climate policies, market shifts, and carbon intensity on operations.
- Financial Impact Metrics: Evaluate costs of carbon, insurance, and investment risks related to climate.
- Operational Performance Indicators: Track energy, water use, and waste generation to improve efficiency.
- Supply Chain Resilience Metrics: Manage supplier risks and enhance resilience in sourcing and logistics.
- Adaptation and Resilience Indicators: Implement strategies to adapt to climate risks and scenarios.
- Reporting and Disclosure Metrics: Follow TCFD guidelines for transparent reporting on emissions and climate-related risks.

Three targets set by the company to manage its climate change risks are:

- Gather information and data regarding the role of the company in climate change risks and analyze them on how to mitigate those risks.
- To raise public awareness among the agents and employees of the company regarding climate change risks.
- Comply with the climate change directives issued by regulator and other climate risks related provisions.

### २. राष्ट्रिय तथा अन्तर्राष्ट्रिय परिस्थितीबाट कारोबारलाई परेको असरहरू :

रुस युकेन युद्धका कारण पेट्रोलियम पदार्थमा भएको मूल्यवृद्धि संगै समग्र वस्तुको मूल्यमा भएको वृद्धि, राष्ट्रिय तथा अन्तर्राष्ट्रिय स्तरमा देखा परेको आर्थिक मन्दी तथा उच्च मुद्रास्फीतिको कारणले हुन गएको व्याजदरको वृद्धिको कारणले समग्र अर्थतन्त्रमा परेको असर लगायत सरकारबाट वस्तुहरूको आयातमा लगाइएको प्रतिबन्धका कारण विभिन्न बैंक तथा वित्तिय संस्थाहरूको कर्जामा भएको कमी, उद्योग तथा व्यापारिक क्रियाकलापहरूमा आएको शिथिलता, बैकिङ्ग तरलतामा हुने उतारचढावका कारण मुद्दती निक्षेपमा प्राप्त हुने व्याजदरमा घटबड हुन गई लगानीबाट हुने प्रतिफलमा प्रभाव परेको छ ।

यसैगरी कोभिड-१९ महामारीको प्रभाव न्यून भएको तथा उर्जा क्षेत्रको विस्तार उत्साहप्रद रहेको कारण आर्थिक वर्ष २०८०/०८१ मा नेपालको अर्थतन्त्र ४.३ प्रतिशतको विस्तार हुने अनुमान रहेको छ । गत आर्थिक वर्षमा यस्तो विस्तार २.१६ प्रतिशत रहेको थियो ।

#### Responsibilities of management and Those Charged with Governance for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Nepal Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operation, or has not realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's responsibility for the audit of financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users taken on the basis of these financial statements.

As part of an audit conducted in accordance with NSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going

concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern; and,

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in manner that achieves fair presentation.

We communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on matters required under Nepal Company Act, 2063**

Pursuant to the legal requirement under section 115(3) of Companies Act, 2063 with respect to our responsibilities to report, we report that:

1. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
2. In our opinion, the financial statements referred in this report have been prepared in accordance with Companies Act, 2063 and are in agreement with the books of account maintained by the company;
3. In our opinion, proper books of account as required by prevailing law have been kept by the company so far as appears from our examination of such books;
4. To the best of our information and according to explanations given to us and from our examination of the books of account of the company necessary for the purpose of our audit, we have not come across cases where Board of Directors or any employee of the company have acted contrary to the provisions of law, or committed any misappropriation or caused loss or damage to the company.
