Disclosure as per Section 84(3) of Insurance Act, 2079

1. Solvency Ratio related disclosure:

The latest solvency ratio of the company as per the Actuarial Valuation of FY. 2080/81 as per Risk Based Capital & Solvency Directive 2024 is 134.3% which is greater than the mandatory limit of 130%.

2. Reinsurance related disclosure:

The company has reinsurance arrangements with the following reinsurers:

- a) Hannover Rueck SE
- b) Nepal Re-insurance
- c) Himalayan Re-insurance

The mandatory direct cessation to domestic reinsurers of 6% each as per the reinsurance directive 2080 has been complied with. The company has made adequate arrangements to reinsure its risk on the basis of its net worth.

3. Details regarding legal proceeding:

The company is currently in litigation with Inland Revenue Department for the Assessment of FY. 2072/73, 2073/74, 2074/75, 2075/76, 2076/77 and 2077/78 totaling Rs. 52,45,24,061.

4. Corporate Governance:

The company has fully complied with the corporate good governance directive 2080 issued by Nepal Insurance Authority. The company is continuously monitoring the compliance with the corporate good governance directive with the help of its comprehensive manuals and regulations. The Board of Directors, Audit Committee, Senior Management and Compliance Officer are committed to upholding corporate good governance practices in the company.

5. Regulatory limit on expenses ratio:

The management expense ratio of the company is 18.53% of the gross premium collected which is under the regulatory limit of 30%.

**PUBLISHED AS PER ANNEXURE 14 OF RULE 26 OF SUB RULE (1) OF SECURITIES REGISTRATION
AND ISSUE REGULATION, 2073**

FOURTH QUARTER OF FINANCIAL YEAR 2081/82

1. Financial Statements

a) The Statement of Financial Position, Statement of Profit and Loss, Statement of Other Comprehensive Income and other details of fourth quarter of F.Y. 2081/82 have been published in this national daily.

b) Major Financial Indicators:

Earnings per Share: Rs. 7.92	Net Worth Per Share: 129.72
P/E Ratio: 78.73	Total Assets per Share: 1,886.70

2. Management Analysis:

a) Company's deposits, earnings and liquidity situation in the quarter: Satisfactory

b) Analytical Details regarding the business plan of the management for the next period:

The company has planned to increase its market share by increasing its penetration in new geographical markets and bringing in new policies that are relevant to the market. The company has also planned to increase its agency network to increase its market share.

c) Any incidents and situations etc. from the past that might affect the deposits, profits and cash flow of the company: No.

3. Details of Legal Proceedings:

The company is currently in litigation with the Inland Revenue Department for the Assessment of F.Y. 2072/73, 2073/74, 2074/75, 2075/76, 2076/77, and 2077/78 totaling Rs. 52,45,24,061.

4. Analysis of Share Transaction of the company:

a) Opinion of the management regarding the share transactions of the company in the securities market: Satisfactory

b) Details of the Maximum, Minimum, Last price, Total transaction days and Transaction volume of the company in the quarter:

Maximum Price: 660	Minimum Price: 551	Last Price: 623.58
Transaction Volume: 6,567	Transaction Days: 63	

5. Problems and Challenges:

The strategy of the management for solving the company's internal and external problems and challenges: At present the lack of adequate skilled human resources, lack of long-term investment opportunities, increasing competition in the market have been the main challenges for the company. The company has prepared proper business plans and strategies to grow the company's business.

6. Corporate Good Governance:

7. Self-Declaration of Chief Executive Officer about the truthfulness of financials/information:

I, CEO of the company, take responsibility on the truthfulness of the information and particulars disclosed in this report to the best of my knowledge. Further, I declare that the particulars mentioned in the report, to the best of my knowledge, are true, fair and complete except as mentioned in the notes at the time of publication of this report and have not knowingly concealed any material particulars information for the investor to take informed decisions.

National Life Insurance Company Limited

Notes to the Financial Statements

for the year ended Ashadh 32, 2082 (July 16th, 2025)

1. General Information

National Life Insurance Company Limited (herein after referred to as the 'Company') is a public limited company, incorporated on 1988 A.D and operated as Life Insurance Company after obtaining license on 8th January 1988 under the Insurance Act 2049. NLG Insurance Company Limited is an Associate of the Company and National Capital Limited is a subsidiary of the Company.

The registered office of the Company is located at Lazimpat. The Company's share are listed on Nepal Stock Exchange Limited.

The principal activities of the Company are to provide various life insurance products including participating and non-participating products through its province offices, branches, sub-branches, and network of agents.

2. Basis of Preparation

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Statement of Compliance

The Financial Statements of the Company comprises of Statement of Financial Position, Statement of Profit or Loss and Statement of Other Comprehensive Income shown as two separate statements, Statement of Changes in Equity, Statement of Cash Flows and Notes to the Financial Statements which have been prepared in accordance with the Nepal Financial Reporting Standards (NFRS) issued by the Nepal Accounting Standards Board (ASB) and in compliance with the requirements of the Companies Act , 2006, directives issued by Nepal Insurance Authority and required disclosures as per Securities Board of Nepal. The format used in the preparation and presentation of the Financial Statements and disclosures made therein also complies with the specified formats prescribed in the directives of Nepal Insurance Authority.

The Financial Statements have been prepared on a going concern basis. The term NFRS, includes all the standards and the related interpretations which are consistently used.

The financial statements are approved for issue by the Company's Audit Committee on 14-08-2025

(b) Reporting Period and approval of financial statements

The Company reporting period is from 1st Shrawan 2081 to 32nd Ashadh 2082 with the corresponding previous year from 1st Shrawan 2080 to 31st Ashadh 2081. These financial statements have been approved by the Audit Committee on 14-08-2025.

(c) Basis of Measurement

The Financial Statements have been prepared on the historical cost basis except for following Assets & Liabilities which have been measured at Fair Value amount:

- i. Certain Financial Assets and Liabilities which are required to be measured at fair value
- ii. Defined Employee Benefits
- iii. Insurance Contract Liabilities which are required to be determined using actuarial valuation for Liability Adequacy Test (LAT).

Historical cost is generally Fair Value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for Financial Reporting purposes, Fair Value measurements are categorized into Level 1, or 2 or 3 based on the degree to which the inputs to the Fair Value measurements are observable & the significance of the inputs to the Fair Value measurements in its entirety, which are described as follows:

- Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical Assets or Liabilities that the entity can access at the measurement date;
- Level 2- Inputs are inputs, other than quoted prices included within Level 1, that are observable for the Asset or Liability, either directly or indirectly; and
- Level 3- Inputs are unobservable inputs for the Asset or Liability.

(d) Use of Estimates

The preparation of these Financial Statements in conformity with NFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the reported balance of Assets & Liabilities, disclosures relating to Contingent Liabilities as at the date of the Financial Statements and the reported amounts of Income & Expenses for the year presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the Notes to the Financial Statements.

(e) Functional and Presentation Currency

These Financial Statements are presented in Nepalese Rupees (NPR) which is the Company's functional currency. All financial information presented in NPR has been rounded to the nearest rupee except where indicated otherwise.

(f) Going Concern

The financial statements are prepared on going concern basis. The Board of Directors have considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources while assessing the going concern basis. Furthermore, Board is not aware of any material uncertainties that may cast significant doubt upon Company's ability to continue as a going concern and they do not intend either to liquidate or to cease operation of it.

(g) Change in Accounting Policies

Accounting Policies are the specific principles, bases, conventions, rules and practices applied by the Company in preparing and presenting financial statements. The Company is permitted to change an accounting policy only if the change is required by a standard or interpretation; or results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity's financial position, financial performance, or cash flow.

(h) Recent Accounting Pronouncements

Accounting standards issued and effective

All accounting standards issued by Institute of Chartered Accountants of Nepal (ICAN) except mentioned below are effective and has been applied in preparation of these Financial Statements.

Accounting standards issued and non-effective

Institute of Chartered Accountants of Nepal (ICAN) has issued NFRS 17(Insurance Contracts) which is yet to be effective. NFRS 9 will also be applied at the time of application of NFRS 17 and thus yet to be effective.

(i) Carve-outs

The Company has not applied any carve outs provided by the ASB.

(j) Presentation of financial statements

The assets and liabilities of the Company presented in the Statement of Financial Position are grouped by the nature and listed in an order that reflects their relative liquidity and maturity pattern.

(k) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position, only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously. Income and expenses are not offset in the Statement of Profit or Loss unless required or permitted by Nepalese Financial Reporting Standards or Interpretation (issued by the International Financial Reporting Interpretations Committee (IFRIC) and Standard Interpretations Committee (SIC) and as specifically disclosed in the Significant Accounting Policies of the Company.

(l) Materiality and Aggregation

Each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or function are presented separately, unless they are immaterial as permitted by the Nepal Accounting Standard-NAS 1 on 'Presentation of Financial Statements'.

Notes to the Financial Statements are presented in a systematic manner which ensures the understandability and comparability of Financial Statements of the Company. Understandability of the Financial Statements is not compromised by obscuring material information with immaterial information or by aggregating material items that have different natures or functions.

3. Significant Accounting Policies**(a) Goodwill and Intangible Assets****i) Recognition**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in Statement of profit or loss in the year in which the expenditure is incurred.

Subsequent expenditure on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Goodwill on business combination is recognized on the acquisition date at the excess of (a) over (b) below :

(a) The aggregate of:

- a. The consideration transferred measured in accordance with the NFRS 3, which generally requires acquisition-date fair value
- b. The amount of any non-controlling interest in the acquiree measured in accordance with the NFRS 3, and
- c. In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.
- d. The net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

ii) Amortization

The useful lives of intangible assets are assessed to be either finite or indefinite. An intangible asset shall be regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflow for the entity.

Amortization is recognized in statement of profit of loss on Straight Line Method (SLM) over the estimated useful life of the intangible assets, from the date that is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates, The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss.

Useful Life of Intangible Assets based on SLM is categorized as stated below:

List of Assets Categories	Useful Life (In Years) for SLM
Softwares	5
Licenses	Not Applicable

iii) Derecognition

An Intangible Asset is derecognized when no Future Economic Benefits are expected to arise from the continued use of the Asset. Any Gain or Loss arising on the derecognition is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

iv) Impairment of Assets

The Company assesses at each reporting date as to whether there is any indication that Intangible Assets may be impaired. If any such indication exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. An impairment loss is recognized in the Statement of Profit or Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(b) Property and Equipment (P&E)

i) Recognition

Freehold land is carried at historical cost and other items of property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation when, it is probable that future economic benefits associated with the item will flow to the Company and it can be used for more than one year and the cost can be measured reliably.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it meets the recognition criteria as mentioned above. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

ii) Revaluation

After recognition as an assets, lands and buildings whose fair value can be measured reliably, have been carried at revalued amount at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Valuations are being performed to ensure that the fair value of a revalued asset does not materially differ from its carrying amount as at the reporting date. Valuation of the land and buildings are undertaken by professionally qualified valuers.

An increase in the carrying amount as a result of revaluation, is recognized in other comprehensive income and accumulated in equity under the heading of revaluation reserve. However, the increase is recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit and loss. A decrease in the carrying amount as a result of revaluation, is recognized in profit or loss. However, the decrease is recognized in other comprehensive income to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings.

Difference between depreciation on the revalued carrying amount of the asset and depreciation based on the asset's original cost is transferred to retained earnings.

iii) Depreciation

Depreciation of Property, Plant and Equipment other than the Freehold Land i.e. the Company's Freehold Building, Plant & Machinery, Vehicles & Other Assets is provided on "Straight Line Method (SLM) " based on Useful Life estimated by technical expert of the management.

The Assets Useful Life and Residual Values are reviewed at the Reporting date and the effect of any changes in estimates are accounted for on a prospective basis.

Useful Life of Property, Plant and Equipment based on SLM is categorized as stated below:

List of Assets Categories	Useful Life (In Years) for SLM
Land	NA
Buildings	40
Leasehold Improvement	Lease Period
Furniture & Fixture	10
Computers and IT Equipment	5
Officer Equipment	5
Vehicles	10
Other Assets	10

iv) Derecognition

An item of Property, Plant and Equipment is derecognized up to disposal or when no Future Economic Benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

v) Impairment of Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the Asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets. Assets that suffer an impairment are reviewed for possible reversal of the impairment at the end of each reporting period. In case of such reversal, the carrying amount of the asset is increased so as not to exceed the carrying amount that would have been determined had there been no impairment loss.

vi) Capital Work-In-Progress

These are expenses of capital nature directly incurred in the construction of buildings, major plant and machinery and system development which are to be capitalized. Capital Work in Progress would be transferred to the relevant asset when it is available for use. Capital Work in Progress is stated at cost less any accumulated impairment losses.

(c) Investment Properties

Fair Value Model

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market condition at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise, including the corresponding tax effect.

The fair value of investment property is determined by an external, independent property valuer, having appropriate recognized professional qualification and recent experience in the location and category by property being valued.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of profit or loss in the year of retirement or disposal.

Transfer are made to (or from) investment property only when there is a change in use. For a transfer from investment property, the Company accounts for such property in accordance with the policy stated under PPE up to the date of change in use.

90% of the fair value changes in Investment properties have been transferred to Gross Insurance Contract Liabilities and 10% has been recorded in the SOPL.

(d) Deferred Tax Assets and Liabilities

Deferred Tax Assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible Temporary difference and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred Tax Liabilities are generally recognized for all taxable Temporary Differences.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the Deferred Tax Asset to be utilized.

(e) Financial Assets

i) Initial Recognition & Measurement

Financial Assets are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Assets at initial recognition.

When Financial Assets are recognized initially, they are measured at Fair Value, plus, in the case of Financial Assets not at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial Asset. Transaction costs of Financial Assets carried at Fair Value through Profit or Loss are expensed in the Statement of Profit or Loss.

ii) Subsequent Measurement

a) Financial Assets carried at Amortized Cost (AC)

A Financial Asset is measured at amortized cost if it is held within a business model whose objective is achieved is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income in these financial assets is measured using effective interest rate method.

b) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are measured at fair value and changes are taken to statement of other comprehensive income.

c) Financial Assets at Fair Value through Profit or Loss (FVTPL)

A Financial Asset which is not classified in any of the above categories are measured at FVTPL. These financial assets are measured at fair value and changes are taken to statement of profit or loss.

iii) De-Recognition

A Financial Assets is derecognized only when the Company has transferred the rights to receive cash flows from the Financial Assets. Where the Company has transferred an Asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the Financial Asset. In such cases, the Financial Asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the Financial Asset, the Financial Asset is not derecognized. Where the Company retains control of the Financial Asset, the Asset is continued to be recognized to the extent of continuing involvement in the Financial Asset.

iv) Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a financial asset or a group of financial assets is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

(f) Reinsurance Assets

Reinsurance assets are the assets which are created against insurance contract liabilities of the amount which are recoverable from the reinsurer. These assets are created for the reinsurer's share of insurance contract liabilities.

A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after the initial recognition of the reinsurance asset, that the Company may not receive all amounts due to it under the terms of the contract, and the event has a reliably measurable impact on the amount that the company will receive from the re-insurer. If a reinsurance asset is impaired, the company reduce the carrying amount accordingly and is recognized in statement of profit or loss.

(g) Current Tax Assets

The current tax assets represent the excess amount of tax deposited by the company over its tax liabilities. These tax assets shall be adjusted against tax liabilities in the future.

(h) Cash & Cash Equivalent

Cash & Cash Equivalents includes Cash in Hand, Cheque in Hand, Bank Balances and short-term deposits with a maturity of three months or less.

(i) Financial Liabilities

i) Initial Recognition & Measurement

Financial Liabilities are recognized when, and only when, the Company becomes a party to the contractual provisions of the Financial Instrument. The Company determines the classification of its Financial Liabilities at initial recognition.

All Financial Liabilities are recognized initially at Fair Value, plus, in the case of Financial Liabilities not at fair value through profit or loss, transaction costs that are attributable to the issue of the Financial Liability.

ii) Subsequent Measurement

After initial recognition, Financial Liabilities are subsequently measured at amortized cost using the Effective Interest Method.

For trade and other payables maturing within one year from the date of Statement of Financial Position, the carrying amounts approximate Fair Value due to short maturity of these instruments.

iii) De-Recognition

A Financial Liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing Financial Liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Statement of Profit or Loss.

(j) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Statement of Financial Position where there is legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(k) Equity

Financial Instruments issued by the Company are classified as Equity only to the extent that they do not meet the definition of a Financial Liability or Financial Asset.

(l) Reserves and Funds

- i) Share Application Money Pending Allotment:** The company currently doesn't have any share application money pending allotment.
- ii) Share Premium:** If the Company issues share capital at premium it receives extra amount other than share capital such amount is transferred to share premium. The amount in share premium is allowed for distribution subject to provisions of company act & regulatory requirement.
- iii) Catastrophe Reserve:** The Company has allocated catastrophe reserve for the amount which is 10% of the distributable profit for the year as per Regulator's Directive.
- iv) Fair Value Reserve:** The Company has policy of creating fair value reserve equal to the amount of Fair Value Gain recognized in statement of other comprehensive income as per regulator's directive.
- v) Actuarial Reserves:** Reserve against actuarial gain or loss on present value of defined benefit obligation resulting from, experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred); and the effects of changes in actuarial assumptions.
- vi) Revaluation Reserves:** Reserve created against revaluation gain on property, plant & equipment & intangible assets, other than the reversal or earlier revaluation losses charged to profit or loss.
- vii) Corporate Social Responsibility Reserves:** The company has a separate corporate social responsibility reserve where one percent of the net profit of each financial year is deposited as required by the Regulatory Directives.
- viii) Other Reserves:** Reserve other than above reserves, for e.g. deferred tax reserve, others (to be specified)

(m) Gross Insurance Contract Liabilities

Outstanding claims provisions

Outstanding claims provisions are based on the estimated ultimate cost of all claims incurred but not settled at the statement of financial position date, whether reported or not, together with related claims handling costs.

Unapportioned surplus

Unapportioned surplus where the amount are yet to be allocated or distributed to either policyholders or shareholders by the end of the financial period, and held within the insurance contract liabilities.

Liability adequacy

At each reporting date, the Company reviews its unexpired risk and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. The calculation uses current estimates of future contractual cash flows after taking account of the investment return expected to arise on assets relating to the relevant life insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums is inadequate, the deficiency is recognized in the statement of profit or loss by setting up a provision for liability.

(n) Employee Benefits

i) Short Term Obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligation in the Statement of Financial Position.

ii) Post-Employment Benefits

-Defined Contribution Plan

The Company pays Provident Fund contributions to publicly administered Provident Funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contribution are recognized as Employee Benefit Expenses when they are due.

-Defined Benefit Plan

For Defined Benefit Plan, the cost of providing benefits is determined using the Projected Unit Credit Method, with Actuarial Valuations being carried out at each Statement of Financial Position. Actuarial Gains & Losses are recognized in the Other Comprehensive Income in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a Straight-Line Basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Statement of Financial Position represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the Fair Value of plan Assets (If Any). Any Asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

iii) Long Term Employee Benefits

The liabilities for un-availed earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. Leave Encashment has been computed using Actuarial Assumptions and these are measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the year using the Projected Unit Credit Method. The benefits are discounted using the market yields at the end of the year that have terms approximating to the terms of assumptions.

iv) Termination

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement in exchange of these benefits. The Company recognizes termination benefits at the earlier of the following dates:

- a) When the Company can no longer withdraw the offer of those benefits; and
- b) When the entity recognizes costs for a restructuring that is within the scope of NAS 37 and involves the payment of termination benefits. The termination benefits are measured based on the number of employees expected to accept the offer in case of voluntary retirement scheme.

(o) Revenue Recognition

i) Gross Premium

Gross Premium are recognized as soon as the amount of the premiums can be reliably measured. First premium is recognized from inception date. At the end of the financial year, all due premiums are accounted for to the extent that they can be reliably measured.

Gross recurring premiums on life insurance contracts are recognized as and when premium is received.

ii) Unearned Premium Reserves

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a pro rate basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

iii) Premiums on Reinsurance Accepted

Premium on reinsurance accepted comprise the total premiums payable for the whole cover provided by contracts entered into the period and are recognized on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods. Unearned reinsurance premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date.

Reinsurance premiums and claims on the face of the statement of profit or loss have been presented as negative items within premiums and net benefits and claims, respectively, because this is consistent with how the business is managed.

iv) Commission Income

Commission Income is recognized on accrual basis. If the income is for future periods, then they are deferred and recognized over those future periods.

v) Investment Income

Interest income is recognized in the statement of profit or loss as it accrues and is calculated by using the EIR method. Fees and commission that are an integral part of the effective yield of the financial asset are recognized as an adjustment to the EIR of the instrument.

Investment income also includes dividends when the right to receive payment is established.

vi) Net realized gains and losses

Net realized gains and losses recorded in the statement of profit or loss include gains and losses on financial assets and properties. Gains and losses on the sale of investments are calculated as the difference between net sales proceeds and the original or amortized cost and are recorded on occurrence of the sale transaction.

(p) Benefit, Claims and Expenses

i) Gross Benefits and Claims

Benefits and claims includes the cost of all claims arising during the year, including external claims handling costs that are directly related to processing and settlement of claims. Benefits and claims that are incurred during the financial year are recognized when a claimable event occurs and/or the insurer is notified. Death, surrender and other benefits without due dates are treated as claims payable, on the date of receipt of intimation of death of the assured or occurrence of contingency covered.

ii) Reinsurance Claims

Reinsurance claims are recognized when the related gross insurance claim is recognized according to the term of the relevant contracts.

iii) Commission Expenses: Commission expenses are recognized on accrual basis. If the expenses is for future periods, then they are deferred and recognized over those future periods.

iv) Service Fees: Service fees are recognized on accrual basis as per the rates mentioned in Insurance act, 2019.

v) Finance Cost : Finance costs are recognized for the period relating to unwinding of discount and interest expenses due to re-measurement of liabilities.

(q) Product Classification

Insurance contracts are those contracts when the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk.

The Company has following portfolios under which it operates its business:

i) Endowment

This is a with profit plan that makes provisions for the family of the Life Assured in event of his early death and also assures a lump sum at a desired age on maturity. It costs moderate premiums, has high liquidity and is savings oriented. This plan is apt for people of all ages and social groups who wish to protect their families from a financial setback that may occur owing to their demise.

ii) Anticipated

This scheme provides for specific periodic payments or partial survival benefits during the term of the policy itself so long as the policy holder is alive. It is therefore suitable to meet specified financial requirements needed for occasions like Brata Bandha, Academic Graduations etc. An important feature of plan is that in the event of death at any time within the policy term, the death claim comprises full sum assured without deducting any of the survival benefit amounts, which have already been paid. It is also with profit plan.

iii) Endowment Cum Whole Life

This plan is a combination of Endowment Assurance and Whole Life with profit plan. It provides financial protection against death throughout the lifetime of the life assured with the provision of payment of a lump sum at the maturity of the policy to the assured in case of his survival.

iv) Whole Life

Whole life is a type of life insurance contract that provides insurance coverage of the contract holder for his or her entire life. Upon the inevitable death of the contract holder, the insurance payout is made to the contract's beneficiaries. These policies also include a savings component, which accumulates a cash value. This cash value is one of the key elements of whole life insurance.

v) Foreign Employment Term

The main objective of foreign employment term is providing insurance for financial assistance if there is death or elimination of any insured due to work or staying abroad.

vi) Other Term

Term life insurance, also known as pure life insurance, is life insurance that guarantees payment of a stated death benefit during a specified term. Once the term expires, the policyholder can renew it for another term, convert the policy to permanent coverage, or allow the policy to terminate.

vii) Special Term

Special Term insurance is modified version of term insurance with added benefits.

viii) Others to be Specified –(Anticipated Whole Life)

This scheme provides for specific periodic payments or partial survival benefits during the term of the policy itself so long as the policy holder is alive. An important feature of plan is that in the event of death at any time within the policy term, the death claim comprises full sum assured without deducting any of the survival benefit amounts, which have already been paid. It provides insurance coverage of the contract holder for his or her entire life. It is also with profit plan.

(r) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in statement of profit or loss in the period in which they are incurred.

(s) Cash Flow Statement

Cash Flows are reported using the direct method, whereby major classes of cash receipts and cash payments are disclosed as cash flows.

(t) Leases

The lease liability has been accounted for under NFRS 16 "Leases". For all the significant lease, the Right-of-Use assets has been recognized at its initial recognition under cash model. The Lease liability has been recognized at the present value of the lease payments that are not paid at that date. The lease payment has been discounted at the incremental borrowing rate in lease which is 10.89%.

After the commencement date, the right of use asset has been measured using cost model. The lease liability has been increased to reflect interest on the lease liability & has been reduced by the lease payment.

The lease assets having the lease liability of equal to or less than 30 lacs present value at inception has been considered as low value and for those lease the expenses has been recognized under straight line basis.

(u) Income Taxes

Income Tax Expense represents the sum of the tax currently payable & Deferred Tax.

i) Current Tax

Current Tax Expenses are accounted in the same period to which the revenue and expenses relate. Provision for Current Income Tax is made for the Tax Liability payable on Taxable Income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

ii) Deferred Tax

Deferred Tax is recognized on temporary difference between the carrying amounts of Assets and Liabilities in the Statement of Financial Position and their Tax Base. Deferred Tax Assets & Liabilities are recognized for deductible and taxable temporary differences arising between the tax base of Assets & Liability in a transaction that is not a business combination and affects neither accounting nor taxable Profit nor Loss at the time of the transaction.

Deferred Tax Assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible Temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred Tax Liabilities are generally recognized for all taxable Temporary differences.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the Deferred Tax Asset to be utilized.

(v) Provisions, Contingent Liabilities & Contingent Assets

i) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate to determine the present value is a Pre-Tax Rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

Provisions for Contingent Liability are recognized in the books a matter of abundant precaution and conservative approach based on management's best estimate. However, Management believes that chances of these matters going against the company are remote and there will not be any probable cash outflow.

ii) Contingent Liabilities

Contingent Liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

iii) Contingent Assets

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognized but disclosed in the Financial Statements.

(w) Functional Currency & Foreign Currency Transactions

The Financial Statements of the Company are presented in Nepalese Rupees, which in the Company's Functional Currency. In preparing the Financial Statements of the Company, transactions in currencies other than the Company's Functional Currency i.e. Foreign Currencies are recognized at the rates of exchange prevailing at the dates of the transactions.

(x) Earnings Per Share

Basic Earnings per share is calculated by dividing the profit attributable to owners of the company by the Weighted Average Number of equity shares outstanding during the Financial Year.

For diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assumed conversion of all dilutive potential ordinary shares.

(y) Operating Segment

Operating Segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) as defined by NFRS 8, "Operating Segment".

Company's Income & Expenses including interest are considered as part of un-allocable Income & Expenses which are not identifiable to any business segment. Company's Asset & Liabilities are considered as part of un-allocable Assets & Liabilities which are not identifiable to any business.

(z) Leased Assets

The Company has made the use of leasing arrangements principally for the provision of the office spaces. The rental contracts for the offices are typically negotiated for terms between 3 and 10 years and some of these have extension terms. The Company has not entered into sale and leaseback arrangements. All the leases are negotiated on an individual basis. The Company has assessed whether a contract is or contains a lease at inception of the company. The lease conveys the right to direct the use and obtain substantially all of the economic benefits of an identified assets for a period of time in exchange for consideration.

At lease commencement date, the company has recognized a right-of-use lease asset and a lease liability in its Statement of Financial Position. The right of use assets is measured at cost. Which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date.

The Company has depreciated the right of use asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. The company has also assessed the right of use asset for impairment when such indicator exist.

At the commencement date, the company has measured the lease liability at the present value of the lease payments unpaid at that date, discounted using the company's incremental borrowing rate because as the lease contracts are negotiated with third parties it is not possible to determine the interest rate that is implicit in the lease. The incremental borrowing rate is the estimated rate that the company would have to pay to borrow the same amount over a similar term, and with similar security to obtain an asset of equivalent value.

Operating Segment

Segment information is presented in respect of the Company's business segments. Management of the Company has identified portfolio as business segment and the Company's internal reporting structure is also based on portfolio. Performance is measured based on Segment asset is disclosed below based on total of all asset for each business segment.

The Company operates predominantly in Nepal and accordingly, the Management of the Company is of the view that the financial information by geographical segments of the Company's operation is not necessary to be

Business Segments of the Company's are:
